

BABY WRAP

A Baby Wrap is essentially a piece of long fabric you tie and knot around yourself to create a pouch on your chest, hip or back where your baby can sit. The fabric usually wraps over your shoulders and across your torso. It's meant to distribute the baby's weight across your shoulders and hips. You can secure your baby in the pouch for baby wearing. There are three different ways of wraps. It allows you to keep your hands free while keeping baby secure, and allows you to nurse your baby while still being worn. It's comfortable and calming for baby due to the stretchy nature of the fabric, and can provide a swaddling sensation for baby and can calm her.

Features :

- Comfortable, soft, breathable, stretchy, lightweight fabric
- Optimal ergonomic fit, designed for back and shoulder support
- Wrap in 3 ways: Hip, Hug and Kangaroo
- Easy to slip on and adjust for a custom fit
- Protect the back of the cervical spine
