

SUPPORT BRACE

Support Brace is a device that a person wears to assist with their daily function, reduce pain, or improve efficiency in a task that they want to get back to, and offers moderate support, making it a good fit for daily use, as well as more intense activities. Support braces can be used around the knee, ankle, elbow, and wrist. They may help the person by providing guidance to movement throughout the joint, improving stability, decreasing weight bearing through painful areas of the joint, or limit muscular/tendon contraction at that specific area. Ideal for athletes and active individuals dealing with ligament instabilities, meniscus injuries, sprains, or osteoarthritis.

osteoarthritis.

Features :

- Comfortable and breathable
- Light and soft on the skin
- Stay in place as you move
- Safe for daily use
- Easy to clean, machine washable
