

TRANSFER BELT

Transfer Belt is an assistive device which can be used to help safely transfer a person from a bed to a wheelchair, assist with sitting and standing, and help with walking around. It is secured around the waist to allow a caregiver to grasp the belt to assist in lifting or moving a person. When used properly, the belt protects the care recipient from falling and also protects the caregiver from injuring his or her back as they lift or move the care recipient. Our transfer belt is made out of canvas, nylon, or leather with a buckle at one end.

Features :

- High quality materials, sturdy and durable
- Designed to be safe and comfortable
- Reinforced padded handle grip
- Move and transfer with ease
- Easy to put on & take off
