PET BATH TOWEL

Pet batch towel is made of soft, super absorbent material that will not only keep your pets clean but also help them stay comfortable. The microfiber chenille fabric with long tassels will increase the amount of fabric that will come into contact with your pets. This not only helps them to absorb water more quickly but also increases water absorbing capacity. Hand pockets design makes it much easier to keep a grip on the towel while trying to dry off your pet's belly, ears and legs. Except drying, it also works as a small blanket for traveling, snuggling and protecting furniture.

Features:

- · Eco-friendly & skin-friendly
- · Soft & comfortable
- · Super absorbent
- Quick drying
- · Color fastness
- · Machine washable
