

DOG SNUFFLE MAT

Dog Snuffle Mat is designed to hide dry food, making it more difficult to eat and encouraging dogs to use their hunting skills to locate it. A dog snuffle mat consists of a rubber, fabric, or plastic mat base. Fabric (usually fleece) is then knotted or sewn into the base with long tails left sticking up as if to imitate grass. Dry food, treats, or kibble can then be sprinkled into the mat so that the dog has to seek it out. The dog snuffle mats are a great way to entertain a dog and provide them with mental stimulation as well as slow their eating. They're suitable for puppies, elderly dogs, and those recovering from physical injury or surgery.

Features :

- Provide mental stimulation to reduce boredom
- Slow down eating to avoid bloat and stomach pain
- Burn energy for a calmer dog
- Provide entertainment to help curb separation anxiety
- Encourage use of the brain to help stave off doggy dementia
