

# PET MUZZLES

**Pet Muzzles** are protective devices that are put on your pet's snout to keep him from biting. Dog muzzles are useful preventative tools to keep dogs from engaging in dangerous behavior with their mouths, and can be especially helpful for dogs who like to eat non-food items. They can also be helpful whenever you think your dog is likely to bite, including in emergency situations where your dog is injured or frightened. Dog training muzzles may also be necessary while your dog is still getting used to things like seeing the veterinarian or getting professionally groomed.

## Features :

- Food grade materials, healthy for pets
- Varieties of styles and sizes for choice
- Resistant to scratches and bite
- Easy to put on without falling off
- Adjustable neck strap for perfect fit

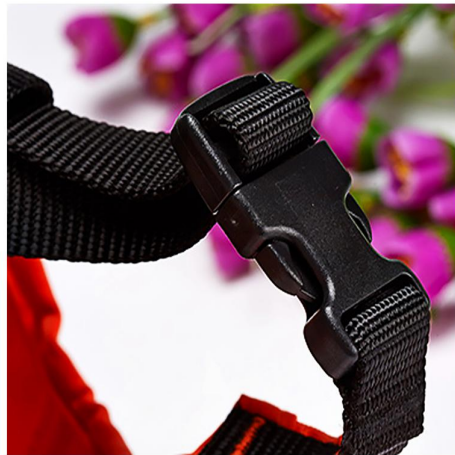

### PM-4901
