

# PET TRAINING PAD

**Pet Training Pad** is a piece of soft cloth that is quilted with a absorbent non-woven underneath it and is sewn to a waterproof backing. It is designed in 3-layer or 4-layer. The surface layer is made from soft and hydrophilic fabric that can absorb urine quickly. The second layer is made from super absorbent non-woven needle punch that can trap urine and lock it in effectively. The third layer or backing is made from waterproof and non-slip fabric. The purpose of the product is to capture urine and absorb it into the non-woven material so it does not ruin furniture.

## Absorbency level suggestions :

**Mild incontinence :** 6 ounce or less soaker

**Moderate incontinence:** 8 ounce or 10 ounce soaker

**Heavy incontinence:** 12 ounce or more soaker

## Features :

- Multi-layered design offers perfect protection
- Quilted construction ensures many times washing and maintains its shape
- Washable over 200 times at 90°C water
- Non-slip bottom layer keeps the pad in place
- Better for the environment than disposables

## 3-layer design

## 4-layer design
